Style & Influences

Drawing from Doom, Death and Gothic Metal, All We Leave Behind takes inspiration from bands such as Black Sabbath, Candlemass, Paradise Lost, My Dying Bride and Type O Negative.

Their sound is built around crushing, heavy riffs, haunting piano lines, melancholic melodies and a powerful, technical rhythm section. The band explores the contrast between brutality and sensitivity, creating music that is both crushing and atmospheric.

In Absence of Light

This second album continues the exploration of dark and introspective themes, blending heavy, slow riffs with melancholic melodies. The result is an atmosphere that is both powerful and contemplative, marked by a strong emotional depth.
